Subject: RE: Report of USA Smoke Odor Results

I deleted a lot of files from the COC after the reports were generated and filed. I will take a look but I can't guarantee anything.

Just to be clear, is the report the only thing missing from the file?

Candace

I have everything here to give to Raymond but the report I mentioned. Do you have it? Thanks

Virginia, You should have this information at the COC, to include the protocol, report and supporting documentation.

Raymond is putting together a scientific summary of all tests performed on the Accord (both E4 and JLI) related to environmental tobacco smoke. Please send Raymond a copy of your report from the study conducted in February, 2001 that supported the PMUSA claims. Thanks for your help in advance.
